

The Oyster Perpetual
PEARLMASTER 39

ROLEX

Oyster, 39 mm, Everose gold and diamonds
PEARLMASTER 39

The Oyster Perpetual Pearlmaster has stood out since its launch in 1992, thanks to its elegant lines and precious materials. Set with diamonds, rubies, sapphires or emeralds, it is a new, feminine interpretation of Rolex's emblematic Datejust.

MODEL CASE

MODEL CASE

Oyster, 39 mm, Everose gold and diamonds

OYSTER ARCHITECTURE

Monobloc middle case, screw-down case back and winding crown

DIAMETER

39 mm

MATERIAL

18 ct Everose gold

BEZEL

Set with diamonds

WINDING CROWN

Screw-down, Twinlock double waterproofness system

CRYSTAL

Scratch-resistant sapphire, Cyclops lens over the date

WATER-RESISTANCE

Waterproof to 100 metres / 330 feet

MOVEMENT

MOVEMENT

Perpetual, mechanical, self-winding

CALIBRE

3235, Manufacture Rolex

FUNCTIONS

Centre hour, minute and seconds hands.
Instantaneous date with rapid setting. Stop-seconds for precise time setting

OSCILLATOR

Paramagnetic blue Parachrom hairspring

WINDING

Bidirectional self-winding via Perpetual rotor

POWER RESERVE

Approximately 70 hours

PRECISION

-2/+2 sec/day, after casing

BRACELET

BRACELET

Pearlmaster, rounded five-piece links

BRACELET MATERIAL

18 ct Everose gold

CLASP

Concealed folding Crownclasp

DIAL

DIAL

Aubergine set with diamonds

GEM-SETTING

Diamonds in 18 ct gold settings

CERTIFICATION

CERTIFICATION

Superlative Chronometer (COSC + Rolex certification after casing)

Style of the Pearlmaster 39

THE WORLD'S MOST BEAUTIFUL DIAMONDS

The diamonds gracing the Pearlmaster 39 are selected according to rigorous criteria and set in keeping with the finest traditions to ensure the most intense radiance. Rolex has its own gemmology laboratory, where experienced specialists check the quality of the precious stones.

The gems are then entrusted to the in-house master gem-setters, experts in the art of exalting the stones' natural lustre. In addition to the intrinsic quality of the stones, several criteria contribute to the reputation of Rolex gem-setting: the precise alignment of the height of the gems, their orientation and position, the robustness, the regularity and aesthetics of the setting, as well as the finishing of the beads.

Style of the Pearlmaster 39

THE ART AND CRAFT OF ROLEX DIALS

Dial creation is nothing less than a true metier d'art. Very few watchmaking companies besides Rolex master all the aspects of dial creation in-house. Mother-of-pearl, gold, meteorite and diamonds are just some of the fine materials used to ensure the beauty and individual character of each Rolex dial. Some are embellished with subtle sun or sand-blasted finishes, some are beautifully lacquered.

Decors in relief are crafted through machining or electroforming. The applique hour markers – from gem-set to luminescent, from Arabic to Roman numerals – are always in 18 ct gold and affixed by hand. The final touch is the most significant of all: the placing of the applique Rolex crown.

Function of the Pearlmaster 39

WHAT A DIFFERENCE A DATE MAKES

In the earliest Datejust models, the date would begin to change hours before its midnight rendezvous. In 1955, the date-change mechanism was adapted to operate instantaneously and the date aperture was enhanced with a Cyclops lens enabling magnification of the date for easy reading.

Spirit of the Pearlmaster 39

THE FIRST DATEJUST

The Datejust, introduced in 1945, was the first wristwatch to display the date through an aperture on the dial. Its unique magnifying Cyclops eye, added a few years later, became recognised as a Rolex design standard. Admired for its classic design, the Datejust became an iconic symbol of style.

Features

THE OYSTER CASE, SYMBOL OF WATERPROOFNESS

The refinement of the Oyster Perpetual Pearlmaster 39 merely complements its technical excellence as a Rolex watch. Its Oyster case, guaranteed waterproof to a depth of 100 metres (330 feet), is a paragon of robustness, proportion and elegance. The characteristically shaped middle case is crafted from a solid block of 18 ct Everose gold, cast by Rolex in its own foundry. The fluted case back is hermetically screwed down with a special tool that allows only Rolex watchmakers to access the movement. Fitted with the Twinlock double waterproofness system, the winding crown screws down securely against the case. The crystal, with a Cyclops lens at 3 o'clock for easy reading of the date, is made of virtually scratchproof sapphire. The waterproof case provides optimum protection for the Pearlmaster 39's high-precision movement.

Features

PEARLMASTER BRACELET

With delightfully rounded solid links in 18 ct gold, the Pearlmaster bracelet contributes to the watch's distinctive character and offers the wearer maximum comfort. It is fitted with a concealed Crownclasp that is both elegant and functional. An alternative version of the bracelet is available with intermediate links in 18 ct white gold sublimely set with diamonds. Echoing the bezel and dial, this superb gem-setting provides the finishing touch to an authentic watchmaking masterpiece.

Features

PERPETUAL CALIBRE 3235

The Pearlmaster 39 is equipped with calibre 3235, a new-generation movement entirely developed and manufactured by Rolex. This self-winding mechanical movement is at the forefront of watchmaking. A consummate demonstration of Rolex technology, with 14 patents, it offers fundamental gains in terms of precision, power reserve, resistance to shocks and magnetic fields, convenience and reliability. It incorporates the new Chronergy escapement patented by Rolex, which combines high energy efficiency with great dependability. Made of nickel-phosphorus, it is also insensitive to magnetic interference. An optimized blue Parachrom hairspring is fitted to the oscillator, the true heart of the watch. Patented and manufactured by Rolex in an exclusive paramagnetic alloy, it is also up to 10 times more precise than a traditional hairspring in case of shocks. A Rolex overcoil ensures its regularity in any position. Calibre 3235 is equipped with a self-winding module via a Perpetual rotor. Thanks to a new barrel architecture and the escapement's superior efficiency, the power reserve of calibre 3235 extends to approximately 70 hours.

Features

SUPERLATIVE CHRONOMETER CERTIFICATION

The Pearlmaster 39 is covered by the Superlative Chronometer certification redefined by Rolex in 2015. This exclusive designation testifies that the watch has successfully undergone a series of tests conducted by Rolex in its own laboratories according to its own criteria, which exceed watchmaking norms and standards. The certification applies to the fully assembled watch, after casing the movement, guaranteeing superlative performance on the wrist in terms of precision, power reserve, waterproofness and self-winding. The precision of a Rolex Superlative Chronometer after casing is of the order of $-2/+2$ seconds per day, or more than twice that required of an official chronometer. The Superlative Chronometer status is symbolized by the green seal that comes with every Rolex watch and is coupled with an international five-year guarantee.

Features

SUPERLATIVE CHRONOMETER

The green seal accompanying every Rolex watch is a symbol of its status as a Superlative Chronometer. This exclusive designation attests that it has successfully undergone a series of specific final controls by Rolex in its own laboratories according to its own criteria, in addition to the official COSC certification of its movement. This unique testing of the chronometric precision of the cased-up movement, as well as of the watch's waterproofness, self-winding and power reserve, pushes back the boundaries of performance and makes Rolex the benchmark for excellence in mechanical watches. The green seal is coupled with a five-year guarantee which applies to all Rolex models.

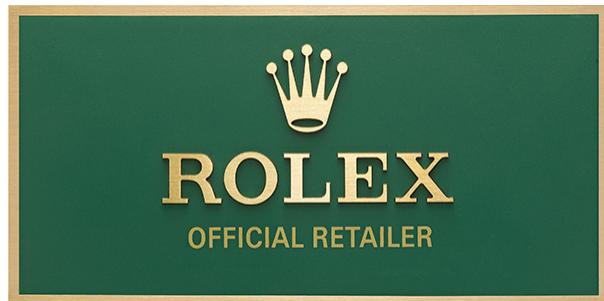

Where to buy a Rolex

THE OFFICIAL ROLEX RETAILER

Only official Rolex retailers, distinguishable by this official green plaque, are allowed to sell and maintain a Rolex. With the necessary skills, technical know-how and special equipment, they guarantee the authenticity of each and every part of your Rolex, not to mention its reliability over time, helping you make the choice that will last a lifetime.
